

LOCAL POSTAL CUSTOMER

VALLEY SUPPLEMENTAL LEVY - MAY 20 VOTE NO

The local "supplement" is no longer needed

In the past, the Valley School District offered quality education and multiple electives without burdening the community with a levy. Since Valley's supplemental levy started in 2011, state public school support has increased by \$1.5 BILLION. Encourage the district to operate within the ample funds provided by the state of Idaho.

Decline the \$300,000 supplemental levy on Tuesday, May 20.

Even though enrollment at Valley has fallen over the last decade by nearly 100 students, the district now receives over \$1.9 million more in state support than it did in 2015.
